 18 and request for the FBI to be present at any hearing, on the _____ day of November 2014, or
 19 as soon thereafter, as counsel maybe heard in the above entitled proceeding. On March 15,
 20 1921, Quaker Oats filed a Trademark Application within the UPSTO bearing the exact face of
 21 Nancy Green, Serial No. 71105827, and Registrations number 0120160. (Exh. 101, Nancy

Portrait of Nancy Green as "Aunt Jemima" by A. B. Frost

Serial No. 71144762 Reg. No. 0146681; http://en.wikipedia.org/wiki/Nancy_Green

Plaintiff asserts and alleges inside the UPSTO Trademark application Quaker Oats Executive made false statements claiming the image being that of the woman Nancy Green was a fictional character. Specifically, Conspirators erroneously represented the image to be **women**, ("emphasis added); instead of **one woman** being Nancy Green, thus constituting a **motive for premeditated Murder in the First Degree.** (Mens Rue) According to the image below dated **January 15, 1921**, Quaker Oats Executives advertised that it was Aunt Jemima's idea to use the ingredient "**powdered milk.**"

7. "Aunt Jemima Bids Goodbye to the Old Plantation," *Saturday Evening Post*, 15 January 1921, 66

"**A way had to be found to mix by machinery the ingredients of Aunt Jemima's pancake batter, to mix them exactly according to "HER"** (**emphasis added**) **Recipe!** Equipment had to be built; it couldn't be bought. No one had ever made such pancake flour before. At last the way was found. The ad

also mentioned that it was “**Aunt Jemima’s idea**,” to add the “**dried milk**” (emphasis added) to the flour mix, **NOT R.T. Davis’s**.’

“Mosaic of Guilt”

On September 23, 1923, two and a half years later after Quaker Oats advertised that it was Aunt Jemima's Idea for the powered milk, and consequently Nancy Green's image is deposited inside the USPTO as the Trademark; thereafter, beloved Ms. Green was murdered on the South Side of Chicago. (Actus Rues) The murderer's name is not known at this time. Plaintiff does not know if it was a hit and run or if the murderer did jail time. Plaintiff asserts and alleges there is a pattern by Quaker Oats Executives to not relinquish accounting to Ms. Green, Anna Short Harrington, Deloris Hoffman, and Olivia Hunter.

Thereafter, the Plaintiff asserts in a **pattern and practice**, the Conspirators Quaker Oats Executives sent spies out; in order, to align themselves with Governor Dewey's Professional Chef being Anna Short Harrington, with premeditated intent to wrongfully procure in part and/or in whole 64 formulas and 22 menus.(Exh. 1)

Plaintiff asserts in 1935, Quaker Oats Executives hired Anna Short Harrington being the Governor's Chef. Plaintiff asserts in a "**pattern and practice**" Quaker Oats President deposited false statements inside the USPTO and erroneously represented Anna Harrington to not be a real live person of flesh and bone, of which, was designed to evade paying future royalties and to **subvert SAG Agreements**, and to conceal the theft of 64 formulas, and 22 menus. Plaintiff asserts on November 24, 1936, Quaker Oats deposited my Grandmother's Image inside the USPTO. Further to wit, Defendant Quaker Oats historical website reflects a willful act of omission to acknowledge Anna Harrington's name for the corporate website.

AUNT JEMIMA

Reg. No. 71385940
Anna Short Harrington

Reg. No. 1697862
Grandma Olivia Hunter

Around or about 2007, Quaker Oats Marketing Executives gave **coy and arrogant** statements bragging about the **death of Aunt Jemima** calling into question “**Food Poisoning**”. The Plaintiff asserts and alleges for more than six months Supervisors within Vital Statistics

1 kept lying claiming the Plaintiff to not be related, while obstructing the release of the Certified
2 Death Certificate that bears Quaker Oat's name as the employer. Exhibit 1, also explains job
3 duties, and responsibilities on federal sealed document. Plaintiff asserts and alleges said
4 conspirators made the following statement, as it pertains to and "Equitable Fair Share of
5 "ROYALTIES":

6 John Doe Quaker Oats Marketing Executive:

7 **"She was faithful, reliable and never gave us any back talk. Frankly."**

8 Plaintiff asserts and alleges in the article the Conspirators bragged about **suspected**
9 **botulism, (i.e. Food poisoning)** of Anna Short Harrington, with the coroner neglecting to
10 conduct and autopsy, thus calling into question fowl play. How can you tell if a person had a
11 heart attack when the coroner never performed the **prerequisite autopsy**?

12 A mistake is an unintentional departure away from truth. An error is an intentional
13 departure away from truth. (i.e. Quaker Oats Deposited Statements Inside the USPTO). 90% of
14 the time, a person that commits a crime returns to the scene of the crime in some form or
15 fashion due to the nefarious nature of the criminal mind.

16 Quaker Oats Executives then went down the entire Harrington blood line utilizing Aunt
17 Deloris Hoffman, Aunt Laura Mae Patterson, and then Grandma Olivia Hunter. Conspirators at
18 **Quaker Oats Executive** made the following statements to the press:

19 **"Mosaic of Guilt"**

20 **"How Jemima contracted the deadly germ is unknown."** (Freudian Slip)

21 All forms of botulism can be fatal and are considered medical emergencies.
22 **Foodborne botulism** is a public health emergency because many people can be
23 **poisoned by eating contaminated food.** Exhibit 1 reflects a cause of Death on the
24 Certified Death Certificate concerning a heart attack ironically without an Autopsy, thus
25 calling into question as a reasonable mind person a pattern of fowl play.

**Laura Mae Sizemore**

Laura Mae Sizemore, 74, of 300 Burt St., Syracuse, died Saturday after a long illness.

Mrs. Sizemore was born in Raleigh, N.C.

She was one of five children of Anna S. Harrington, who was the representative for the Quaker Oats Company for more than 15 years as "Aunt Jemima." She and her late sister Dolores also appeared in commercials as representatives.

Mrs. Sizemore worked as a cook at the Kappa Sigma, Phi Sigma Delta and Sigma Alpha Mu houses at Syracuse University.

Surviving are a brother, Levi Harrington of Sanford, Fla.; an aunt, Lila Davis of Rockingham, N.C.; two nieces, Elizabeth Hunter and Louise Solomon, both of Syracuse; several great- and great-great nieces and nephews; and her companion, Joseph Edmon.

Services are 1 p.m. Thursday at the Edwin L. Cole Funeral home, 2104 S. Salina St. Calling hours are 2 to 4 and 7 to 8 p.m. Wednesday at the funeral home.

Burial will be in Oakwood Cemetery.

Repast will be at 346 Furman St.

Quaker Oats has bragged to reporters about Food Poising thus calling into question fowl play concerning the death of "**MY GRANDMOTHER**" and "**MY AUNT DELORIS**". We will not be holding hands, singing "**Cum By Yah**" and doing any **Joint Report**. We will not be singing "**We shall over Come.**" The Conspirators have had a copy of the civil complaint since March 17, 2014 and technically defaulted on October 4, 2014. A joint Report has to come technically after the Defendants have submitted an answer to a civil complaint. When a dispute arises over certified trademark attached to a civil complaint the pleadings and any response in their entirety are governed pursuant to **18 USC §§§2, 3, 4, & 1001**.

37 C.F.R. Secs. §2.34(a)(1)(i).

"When the Applicant seeks a registration under Section 1(a) of the trademark Act, the mark "**WAS IN USE IN COMMERCE**" (Emphasis added") on or in connection with goods or services listed in the application as the application filing date." 37 C.F.R. Secs. §2.34(a)(1)(i). The Applicant, had to agree that "**willful false statements**" and declares that he/she is "**properly authorized**" to "**execute this application**" on behalf of the applicant; he/she believes that **applicant to be the owner of the trademark/service mark sought to be registered**, or, if the application is being filed under 15 U.S.C. §1041(B), he/she believes applicant to be **ENTITLED** (Emphasis Added) **to use such mark in commerce**; to the best of his/her knowledge and belief no other person, firm, corporation, or association has the right to use the mark in commerce, either in the identical form thereof or in such "**near resemblance**" (emphasis added thereto as to be likely, when **used on or in connection with**

the goods/services of such other person, to cause confusion, or to cause mistake, or to deceive, that if the original application was submitted signed, that all statements in the original application was submitted signed, that all statement in the original application and **this submission made of the “declaration” signer’s knowledge are true; and all statements in the original application and this submission made on information and belief are believed to be true.”** Due to the cited law, the Senior Legal Counsel for Quaker Oats in 1936 refused “execute” his name on the USPTO Applications **Reg. No. 71385940**, and forced Quaker Oats President to “Execute” his name.

Congressional Mandate

Until May of this year, judges had been abusing the **equitable doctrine of laches** to cut short the **statute of limitations** on copyright claims mandated by Congress in the Copyright Act. The Copyright Act, Trademark law, and Patent law run bow legged. According to Congressional mandate within 67 years of the author and/or inventors death the **heirs** must invoke the lawful rights of ownership. Recently, the Supreme Court stepped in to end **subversive practice**; Justice Ginsburg writing that “**courts are not at liberty to jettison Congress’ Judgment**” on such matters. *Petrella v. MGM*, 188 L. Ed. 2d 979, 986 (2014). Statutes of limitation do not begin to run until the discovery of “**Fraud**” occurs, but there is not such thing as a **statutes of limitations** as it concern premeditated “Murder” over the construction of a contract, property, patents, or formulas; especially, if a “**pattern unfolds**” involving statements deposited inside a federal branch that may invoke violations of 18 U.S.C. 2, 3, 4, and 1001. Plaintiff cannot submit a joint report until Vital Statistics is forced to relinquish Deloris Hoffman’s Certified Death Certificate. According to Marble Manning, the Secret Service of the United States classified and/or designated a **dirty bomb** as “**Aunt Jemima**”, pages 149-151, “**Slave in A Box.**” Was the dirty bomb or secret conspiracy that Grandma Harrington may have been food poisoned; in order, for nefarious perpetrators to wrongfully procure 64 formulas and 22 menus? The plaintiff does not have that answer, but in light of the deceptive **pattern and practice** perpetrated upon the Federal Branch of the USPTO; “Probable Cause” does exist to exhume the gravesites of Grandma Anna Short Harrington, and Aunt Deloris Hoffman after receipt of medical records. (Exh. 1)

1 **"The woman whose likeness was painted for the logo was Anna Short Harrington."**

2 http://www.netipedia.com/index.php/Aunt_Jemima (Exh. 19)

3 It is absolutely true that Aunt Jemima represents the **warmth, nourishment and trust**
4 — **qualities** you'll find in **loving moms** (i.e. **Olivia Hunter Forster Mother**) that **cared for**
5 and **want the very best for their family including foster children**. Grandma Olivia Hunter
6 raised more than 30 foster children for the state of Florida and the city of Syracuse. (Exh. 19)
7 When the defendants entered the home of Grandma Olivia Hunter to procure her image without
8 an attorney, they knew she was inflicted with medical complications and had to have ran into
9 foster children under the age of 5 either entering the home and/or when they departed the home.
10 The time between Quaker Oats applying for the trademark application verses Grandma Olivia's
11 time of death is a six month **window of time, thus reflecting forethought**. Once, the
12 Conspirators returned to the Corporate Head-quarters of Quaker Oats, it is not yet determined
13 whether Executives made the decision to **beat our Grandmother out of royalties owed**,
14 because they perceived her taking care of foster children as the duties as a "Black
15 Grandmother" while they **bask in suburban White Privilege**; or if they failed to relinquish a
16 fair share of royalties and did not explain to her the use of her image, because they **could not**
17 **stomach Grandma Olivia Hunter** spending the **largess** on Black and White "**Inner City**"
18 **foster children**. Irrespective of the Conspirators rationale, any forthcoming answer must be
19 accompanied by a **notarized Affidavit** to be weighted pursuant to 18 USC §§§§2, 3, 4, and
20 1001. Plaintiff herein moves for the gravesites of Grandma Harrington, and Aunt Deloris
21 Hoffman only after receipt of the Medical Records from Memorial Hospital in Syracuse.
22 Plaintiff seeks an order of the court to make Memorial Hospital release the medical records for
23 Deloris Hoffman.

15 **Quakerland Pennsylvania – UNN.** Today the Quaker Oats Company recalled Aunt Jemima as a warm and
16 gracious cook, one who would flip-up some hot boxed pancakes for any man, woman or child that was hungry
17 and then stand by with a big smile on her face as her guests filled themselves to bursting on her tender, moist
18 and flakey cooking.

19 **Jemima, whose exact age is known, died at
her shack of suspected botulism.**

20 *"We at Quaker Oats are just sick to hear of the news of Jemima's passing on to the giant kitchen in the sky,"* the
21 multi-national corporation said in a news release issued to American media outlets. *"She was faithful, reliable*
22 *and never gave us any back talk. Frankly we never imagined a world in which she, and her profitability, would*
23 *no longer be a part of our lives."*

24 When asked if this would mean the removal of Aunt Jemima product from grocery store shelves through
25 America, officials stated *"Aunt Jemima would have wanted us to keep using her and her carefully manicured*
26 *image to help sell the gospel of pancakes and maple syrup and we intend to honor that request."*

27
28 **Exh. 102**

1 Jemima became the face of boxed pancake mix and imitation maple flavored syrup in 1888 while working in a
 2 menial job for the Pearl River Milling Company of Montgomery County Kentucky. Quaker Oaks acquired the
 3 brand through a series of acquisitions, and with their help, Aunt Jemima easily wiped the kitchen floor with her
 4 nearest competitor, Mrs. Butterworth.

5 Ageless, Jemima was known for her fanatical preference of traditional black Mammy attire for over eighty years.
 6 In 2000 family members convinced her to modernize her look, which she did by altering hand-me-downs given to
 7 her by her friend Betty Crocker.

8 "Jemima volunteered to come over and help me clean out me closets when I said that I was tired of the past. We
 9 stumbled upon a lovely red Dior suit that I had worn for General Mills in the 1960s," related Crocker from her
 10 executive office in New York. "I was half way to throwing it out when she said 'Now Mrs. Crocker why would you
 11 throw a beautiful dress like dat away? Why with some mending, and maybe some altering I could get a lot of
 12 wear from this.' and you know, she was right."

13 "She looked so good in that suit I threw in a **set of fake pearls** and gave her the name of my botox specialist.
 14 Two weeks later I passed her on the street. She looked amazing for her age, but you know black women don't
 15 show their age like we do."

16 How Jemima contracted the deadly germ is 17 unknown.

18 However Duncan Hines, the noted bob vivant and epicurean, said that ""For as hard as we
 19 might find it, that she died from something she ate is an irony that Jemima would have found very amusing. She
 20 had a true gallows sense of humor.""

21 Jemima's passing brings to end the life of a great American icon. Her husband, Uncle Ben, preceded her in
 22 death. She is survived by numerous nieces and nephews including Oprah Winfrey, Montell Williams and Rodney
 23 Allen Rippey.

What is botulism?

Botulism is a rare but serious paralytic illness caused by a nerve toxin that is produced by the bacterium *Clostridium botulinum* and sometimes by strains of *Clostridium butyricum* and *Clostridium baratii*. There are five main kinds of botulism. **Foodborne botulism is caused by eating foods that contain the botulinum toxin.** Wound botulism is caused by toxin produced from a wound infected with *Clostridium botulinum*. Infant botulism is caused by consuming the spores of the botulinum bacteria, which then grow in the intestines and release toxin. Adult intestinal toxemia (adult intestinal colonization) botulism is a very rare kind of botulism that occurs among adults by the same route as infant botulism. Lastly, iatrogenic botulism can occur from accidental overdose of botulinum toxin. **All forms of botulism can be fatal and are considered medical emergencies.** Foodborne botulism is a public health emergency because many people can be poisoned by eating a contaminated food.

Exh. 104

1 What kind of germ is Clostridium botulinum?

2 Clostridium botulinum is the name of a group of
3 bacteria. They can be found in soil. These rod-shaped
4 organisms grow best in low oxygen conditions. The
5 bacteria form spores which allow them to survive in a
6 dormant state until exposed to conditions that can
7 support their growth. There are seven types of botulism
toxin designated by the letters A through G; only types
A, B, E and F cause illness in humans.
